

Artificial General Intelligence neural symbolic integration, agent-based learning

Ben Goertzel, PhD
World-renowned AGI scientist, CEO SingularityNet, founder OpenCog

Alexey Potapov, PhD
AGI, computer vision, machine learning

Liqi Wang, PhD
AI scientist, deep learning, artificial life

THE AWAKENING TECHNOLOGY DREAM TEAM

Grace
The World's First Humanoid Medical Assistant

Robotics design, engineering, motor controls, navigation, facial design, sensors, character development, content authoring

David Hanson, PhD
Sophia creator, leading humanlike robot designer, founder Hanson Robotics

Vytas Krisciunas, MS
Social robotics, systems analyst

Wenwei Huang, MS
ML, NLP, chatbot expert

Gerardo Morales, MS
Lead robotics engineer, mechanical design

Gregory Kochan, BFA
Hardware manager, operations manager

Sophia
World's most advanced humanlike robot

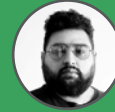

Mengna Lei, MFA
Lead facial designer, rigger, animator

KK Li, MS
Senior quality assurance engineer

Ivan Lee, MS
Electrical engineer, sensors, controls

Mario Guzman, MFA
Content authoring, design

Nora Duenas, MS
Head facial architect

David Lake, CEO
Governor of SingularityNET, Founder of Greater China Capital

System Architecture application and software design

Cassio Pennachin, MBA
AI pioneer, data science and software engineering team leader

Vitaly Bogdanov, MS
Networking, cybersecurity, knowledge-based systems

Nil Geisweiller, PhD
Probabilistic reasoning, meta-learning

Amen Belayneh, BS
Agent and cognitive modeling, inference

Man Hin Leung, BS
Agent modeling, biological AI

Misgana Bayetta, BS
AI research engineer, machine learning

NLP neural architectures, deep learning, dialogue agents, intent classification, speech emotion detection and synthesis, voice identification, language identification, cognitive assessment

Sergey Shalyapin, MS
Speech processing, neurocognitive architectures

Sergey Kislyakov, PhD
Signal processing, big data, robotics

Kirill Yesalov, MS
Big data, data science, devops

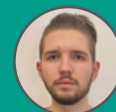

Mikhael Pavlenko, MS
NLP, deep learning, robotics

Anton Onischuk, MS
NLP, data science, machine learning

Andrey Selivanov, MS
System architectures, network engineering, security

Eugeny Kulikov, BS
Speech and signal processing, deep learning

Product Development interaction design

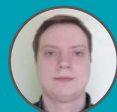

Eddie Monroe, PhD
Psychology, social AI OpenCog

Andres Suarez, MS
NLP, complex adaptive systems, language models

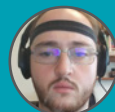

Sergey Rodionov, PhD
Numerical simulations, data science, deep learning

Maxim Peterson, PhD
Computer vision, deep learning, robotics

Oleg Scherbakov, PhD
Computer vision, ML, reinforcement learning

Innokenty Zhdanov, PhD
Computer vision, deep learning

Anatoly Belikov, MS
Data science, deep learning, robotics

Perception vision, audio, face and emotion recognition, active speaker detection, object permanence, COVID-19 infection detection
